

We have adjusted the prices for Revel TV ads because there have been some technical issues to work out. This has hindered the time we have left to advertise for the year.

In approaching businesses, you need to begin by asking for support for the THS team or organization, rather than mentioning Revel TV. The vendor needs to understand that it is the High School group who will benefit, not Revel TV. The conversation could go like this:

This is _____ from Timpanogos _____. We are looking for sponsors for our school. We now have TV displays throughout our school that play all of our announcements, calendar of events, dances, clubs, athletics, etc. For sponsoring us we will put your company ad or logo on our TVs to advertise in between our announcements and school events.

Here are the packages we have to offer you:

\$ 350 A 15-20 second commercial shown on our TV network for the remainder of the 2011-2012 school year.

\$ 250 A 15-20 second commercial shown on our TV network for all of second semester, which starts on January 17.

\$ 150. Your business name and logo will scroll periodically on our TV network for the remainder of the school year.

I have new flyers with the corrected amounts. You can pick them up from my office. Your organization will keep 90% of what you collect. The other 10% will go to pay the expenses incurred to run the program. Please let me know if you have any other questions about Revel TV fund raising. Liz
